

## Notes for My Paper

Don't forget to include examples of topicalization. They look like this:

Topicalization from sentential subject:

7a John<sub>i</sub> [a kltukl [el l-oltoir er ngii<sub>i</sub> a Mary]] **R**-clear COMP **IR**.3s-love P  
him John, (it's) clear that Mary loves (him).

## How to handle topicalization

I'll just assume a tree structure like (1).

Structure of A' Projections:

iCP	iii iiiii iiiiv iiiiv
iiSpec	iiiC'
ivC	vSAgrP

## Mood

Mood changes when there is a topic, as well as when there is WH-movement.

*Irrealis* is the mood when there is a non-subject topic or WH-phrase in Comp.

*Realis* is the mood when there is a subject topic or WH-phrase.
